Plan showing areas surveyed in 2001.
Plan of the shoreline between Trenches 13 and 18 (Area 29).
A. North of Trench 18, view to north, showing Walls 29023, 29032, and 29030.  
B. North of Trench 18, view to northwest, showing Wall 29035.  
C. South of the house in Trench 13, view to north, showing Wall 29053.  
D. North of Trench 18, view to north, showing drain 29039.
Plan of the shoreline between Trenches 18 and 12 (Area 26).
Plan of the shoreline between Trenches 12 and 15 (Area 26).
Plan of the shoreline adjacent to the west side of Trench 15 (Area 26).
A. Northwest of Trench 12, view to northwest. B. Northeast of Trench 12, view to southeast. C. West of Trench 15, view to south, showing limestone pier 26013 composed of ashlar blocks. Probably part of the west interior foundation wall of the monumental building in Trench 15. D. West of Trench 15, view to west, showing limestone pier 26005 composed of ashlar blocks. Probably part of the west exterior foundation wall of the monumental building in Trench 15.
A. West of Trench 15, view to west, showing step-like bedrock cuttings for the northern continuation of the west interior foundation wall of the monumental building in Trench 15.  

B. West of Trench 15, view to south, showing drain 26011.  

C. West of Trench 15, view to east, showing limestone pier 26015 composed of ashlar blocks. Probably part of the mixed construction of ashlar blocks and mortared rubble installed inside the interior foundation wall of the monumental building in Trench 15.
Plan of the shoreline around Kennedy's Site D (Area 27).
A. Southwest corner of rock-cut room, view to southwest, showing two phases of painted-plaster decoration.  
B. South of Kennedy’s Site D, view to south, showing stone stairway.  
C. East of Kennedy’s Site D, view to east, showing large mortared-rubble terrace Wall 27060.  
D. Eastern continuation of Wall 27060, view to east, showing corner of latrine at lower right and Wall 27015 in background, and a stone vessel on the terrace wall.
A. East of Kennedy’s Site D, view to northwest, showing the floor of the latrine (right) and Wall 27040 of solid ashlar construction (center).

B. East of Kennedy’s Site D, view to southeast, showing mortared-rubble drain channel 27002.

C. East of Kennedy’s Site D, view to south, showing detail of mortared-rubble drain channel 27013, with terracotta pipe in situ.
Plan of the shoreline around Trench 9 (Area 25a).
Plan of the shoreline west of Trench 6 (Area 25).
A. House of the Tesserae, Room 9C, view to west, showing collapsed section of arch made of fired brick and mortar.  
B. House of the Tesserae, Room 9C, view to west, showing collapsed section of arch made of mud-brick.  
C. Between Trenches 9 and 6, view to south, showing rock-cut Room 25025.
A. West of Trench 6, view to southeast, showing Mosaic 25001.

B. West of Trench 6, view to northeast, showing rock-cut arch 25033.

C. Rock-cut steps descending down to northeast, below rock-cut arch 25033.
Plan of the shoreline between Trenches 6 and 10 (Area 30a), showing area immediately adjacent to the southeast side of Trench 6.

Plan of the shoreline between Trenches 6 and 10 (Area 30b).
A. Plan of the shoreline between Trenches 6 and 10 (Area 30c).  B. Plan of the shoreline between Trenches 6 and 10 (Area 30d).
Plan of the shoreline between Trenches 6 and 10 (Area 30e), showing area at ZIG Trench 23.
A. Southeast corner of Trench 6, view to south, showing rock-cut grave 30002.
B. Southeast of Trench 6, view to south, showing rock-cut graves 30011 (foreground) and 30012 (background).
C. Detail of previous, showing rock-cut grave 30012.
D. Between Trenches 6 and 10, showing ceramic storage jar in situ.
A. Between Trenches 6 and 10, view to west, showing terrace Wall 30010.  
B. Between Trenches 6 and 10, view to southwest, showing intersection of rubble Wall 30022 and Wall 30021 in solid ashlar construction (right).  
C. West of Trench 10, hypocaust bath, view to east, showing walls of solid ashlar construction and mortared rubble.  
D. West of Trench 10, hypocaust bath, detail of previous showing vertical flue tiles in situ.
A. West of Trench 10, hypocaust bath, view to southeast, showing stone-lined drain channel passing through the building’s north foundation wall. 
B. West of Trench 10, hypocaust bath, view to south, showing stone-covered drain channel outside the west wall of the building (right).
